ABOUT US

About Us

- Our Business Model
- Our Strengths
- Corporate Milestones

We are an apparel supply chain management services provider in Hong Kong principally selling knitwear products predominately in the German market. We deliver one-stop apparel supply chain management solutions to customers, ranging from market trend analysis, product design and development, procurement of raw materials, production management, quality control, and logistics management services.

We offer middle to high-end knitwear products with modern classic styles for professional women. Such knitwear products include pullover, cardigan, vest, pant and skirt. Our customers mainly consist of high-end department stores and boutique shops in Germany. Leveraging on our significant exposure in the fashion industry and extensive experience of apparel supply chain management services, we collaborate with experts to perform market trend analysis for customers. At the start of two main fashion seasons (i.e. spring/summer and autumn/winter), we recommend new product designs and inspirations to customers based on the upcoming fashion trends. According to customer feedback, we also advise on the product design and production specifications in respect of colour tone, selection of raw materials, knitwear styling as well as types of yarn.

Wonder if we can split the "About Us" part like what we do for Investor Relations?
